- XG Sciences' Quality Management System includes:
 - Manufacturing and Sales Processes
 - Product Design
 - Stage Gate Principles
 - Customer Support Activities
 - Corrective and Preventive Actions

Quality Policy

XG Sciences' goal is to meet or exceed customer expectations for supply, performance and technical support of our advanced engineered materials. We recognize that continuous quality improvement is achieved through adherence to the quality management system and a focus on customer requirements at every level of the organization.

* ISO 9001:2015 is established as the globally implemented standard for providing assurance about an organization's ability to satisfy quality requirements and to enhance customer satisfaction in supplier-customer relationships
